

Dear Recruiter,

I am writing to express my strong interest in a Senior Full Stack Web Developer position. With 5.5+ years of professional experience in full-stack development using Symfony, PHP, CodeIgniter, React.js, Node.js, MySQL, and MongoDB, I have architected and delivered scalable web applications and high-performance RESTful APIs across diverse domains.

Across my roles, I have contributed to enterprise platforms, weather and climate systems, geospatial monitoring tools, and analytics dashboards. I have experience leading end-to-end application development — from backend architecture and API design to responsive frontend implementation and database optimization — while collaborating effectively with cross-functional teams to translate complex business requirements into robust technical solutions.

Key highlights of my experience include:

- Designing and developing secure, scalable RESTful APIs using Symfony and Node.js with full Swagger documentation.
- Building full-stack web applications across weather, geospatial, analytics, and enterprise management domains.
- Implementing responsive, cross-browser-compatible frontend modules using React.js, JavaScript, HTML, and CSS.
- Optimizing database schemas and queries in MySQL and MongoDB for performance and scalability.
- Standardizing API response structures, validation workflows, and backend architecture for maintainability.
- Integrating third-party services, data sources, and internal modules across multiple production platforms.

I am committed to clean code, best practices, and delivering high-quality solutions. I am also continuously expanding my expertise in modern frameworks and cloud-based architectures to stay aligned with evolving full-stack development standards.

I welcome the opportunity to contribute my technical skills, problem-solving abilities, and development experience to a forward-thinking organization. Thank you for considering my application. I look forward to the possibility of discussing how I can add value to your team.

With best regards,

Muthukrishnan P
