

MUTHUKRISHNAN P

Full Stack Developer

+91 9786337914 | muthukrishnanpr@gmail.com | [Muthukrishnan P](#) | Villupuram, Tamil Nadu, India

PROFESSIONAL SUMMARY

Full Stack Developer with 5.5+ years of experience building production-grade web applications, REST APIs, dashboards, geospatial platforms, business workflow systems, and modernization projects. Strong in Symfony, PHP, CodeIgniter, React.js, TypeScript, Node.js, Express.js, MySQL, MongoDB, Doctrine ORM, API Platform, Twig, SCSS, Bootstrap, Vite, and Webpack Encore. Experienced across frontend UI development, backend architecture, API integration, database design, authentication, reporting, multilingual interfaces, and legacy-to-modern migration.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Twig, Responsive Design
Backend: Symfony, PHP, CodeIgniter, Node.js, Express.js, REST APIs, API Platform, Doctrine ORM, Symfony Console
Database: MySQL, MongoDB, Doctrine Migrations, Mongoose, Schema Design, Query Optimization
API & Security: JWT, Role-Based Access Control, Validation, CORS, Rate Limiting, Swagger/OpenAPI, Scalar API Reference
Maps & Data UI: MapLibre GL, Mapbox GL, Leaflet, Turf.js, amCharts, DataTables, Dashboards
Tools: Git, GitHub, Postman, Composer, pnpm, Yarn, npm, Vite, Webpack Encore, PHPUnit, Jest, Supertest

PROFESSIONAL EXPERIENCE

Senior Web Developer – Semansys IT Services Pvt Ltd Feb 2022 – Present
Puducherry, India

Tech Stack: Symfony, PHP, CodeIgniter, React.js, TypeScript, Node.js, Express.js, MySQL, MongoDB, REST APIs, MapLibre GL, Vite, Webpack Encore

- Developed full-stack web applications for weather, climate, geospatial, healthcare, inspection, logistics, and business management domains.
- Built Symfony/PHP backends with controllers, services, entities, repositories, validation, event subscribers, API routes, authentication, and database workflows.
- Developed React/TypeScript frontends with reusable components, dashboards, forms, maps, filters, modals, API hooks, responsive layouts, and multilingual UI.
- Designed REST APIs, standardized response structures, integrated third-party services, and connected frontend workflows with backend business logic.
- Built and optimized database schemas, migrations, reporting queries, file workflows, payment/email integrations, and performance-sensitive modules.
- Modernized legacy CodeIgniter systems into Symfony architecture while preserving business workflows and improving maintainability.

UI Designer – CADD Center Jul 2021 – Feb 2022
Theni, Tamil Nadu

Tech Stack: HTML, CSS, JavaScript, Responsive Design, UI/UX

- Built responsive UI pages and converted wireframes into functional frontend layouts using HTML, CSS, and JavaScript.
- Tested browser compatibility, mobile responsiveness, and integration behavior with backend modules.

SELECTED FULL STACK PROJECTS

BPMC Migration – Backporch Mail Center

Tech Stack: Symfony 7.4, PHP 8.3, Doctrine ORM, API Platform, MySQL, JWT, Messenger, Mailer, React, TypeScript, Vite

- Migrated a legacy CodeIgniter portal into a modern Symfony multi-domain platform for admin, customer, reports, tools, and API workflows.

- Rebuilt backend modules for customers, packages, warehouse inventory, quoting, rents, reports, deliveries, email templates, users, roles, and permissions.
- Implemented Doctrine migrations, service-layer refactoring, JWT authentication, API Platform resources, Authorize.Net integration, PDF/Excel handling, and Symfony Mailer.
- Built Vite-powered frontend bundles for admin, customers, reports, tools, and API documentation using TypeScript, React, Bootstrap, DataTables, and form plugins.

UBM– MERN Business Management System

Tech Stack: React.js, TypeScript, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Jest

- Built a MERN business management platform covering customers, products, orders, invoices, payments, reports, users, settings, dashboard, and file workflows.
- Developed React/Vite frontend screens with protected routes, sidebar layout, reusable components, dialogs, forms, pagination, invoice views, charts, and image uploads.
- Built TypeScript Express APIs with Mongoose models, JWT authentication, secure middleware, rate limiting, sanitization, Razorpay, Nodemailer, QR, PDF, and Excel/CSV workflows.
- Added frontend and backend tests for pages, hooks, contexts, users, products, orders, payments, reports, settings, security, stress, and file manager flows.

Al Bahar – Maritime Weather Intelligence Platform

Tech Stack: Symfony 7.2, PHP 8.3, React.js, TypeScript, SCSS, MapLibre GL, Turf.js, amCharts, i18next, Doctrine DBAL

- Developed full-stack modules for maritime weather layers, observations, warnings, tropical storms, NWP maps, and forecast visualization workflows.
- Built React/TypeScript and SCSS frontend features with MapLibre GL, layer controls, playback timelines, geospatial helpers, charts, and English/Arabic translations.
- Implemented Symfony controllers, Twig templates, utility classes, translation resources, security configuration, event subscribers, and weather data integration.

Earthquakes Monitoring Platform

Tech Stack: PHP, React.js, TypeScript, MapLibre GL, Mapbox Draw, Turf.js, DataTables, MySQL/Oracle DBAL, Webpack Encore

- Built a seismic monitoring platform with map-based earthquake events, seismic zones, faults, stations, reports, catalogue views, filters, and historical analysis.
- Developed React/TypeScript geospatial interfaces with desktop/mobile controls, bilingual UI, virtualized lists, throttled interactions, and structured API calls.
- Supported backend integration through PHP controllers, templates, database connectivity, configuration, and domain data files including GeoJSON layers.

API25 – NCM API Platform

Tech Stack: Symfony 8, PHP 8.4, API Platform, Doctrine ORM, Lexik JWT, Nelmio CORS, PHPUnit, OpenAPI/Scalar

- Developed a centralized Symfony API platform with API resources, validation, serializers, JWT security, CORS, documentation, and testable service structure.
- Implemented routes, authentication-aware workflows, weather/radar sample data handling, email templates, and documentation pages for frontend/API consumers.
- Added PHPUnit-based unit and functional test workflows with coverage support for long-term API reliability.

Early Warnings for All

Tech Stack: React.js, TypeScript, PHP, SCSS, Bootstrap, MapLibre GL, React Router, i18next, Webpack Encore

- Built full-stack features for warning maps, disaster datasets, layer controls, API hooks, routing, multilingual content, and public awareness workflows.
- Implemented responsive Arabic-ready UI and integrated warning data feeds through PHP controllers, API endpoints, local datasets, and map components.

ADDITIONAL PROJECTS

- WMO President Portal: Built responsive TypeScript/SCSS public-facing pages, PHP templates, translation support, static data rendering, modals, gallery, and governance sections.

- Polar Research Portal: Developed React/TypeScript and PHP-template UI modules with JSON/GeoJSON content, Mapbox GL maps, English/Arabic translations, and production builds.
- Maalem Inspection System: Built Symfony/Twig pages, mail workflows, JSON content services, Leaflet/Esri map views, amCharts visualizations, and responsive service pages.
- Hernia Score Platform: Developed Symfony healthcare scoring workflows with Doctrine, Twig, React-enabled frontend assets, routing, and production Webpack Encore builds.

CORE STRENGTHS

- Full-stack Symfony, PHP, React.js, and TypeScript development
- REST API design, authentication, validation, and documentation
- Database schema design, migrations, query optimization, and reporting
- Legacy CodeIgniter modernization and Symfony migration
- Dashboard, forms, maps, tables, and workflow-heavy UI development
- MERN stack application development with tests
- Payment, email, file upload, PDF/Excel, and third-party service integrations
- Performance tuning, debugging, maintainable architecture, and production support

EDUCATION

Bachelor of Engineering – Mechanical Engineering

Theni Kammavar Sangam College of Technology (TKSCT), Theni | 2016 – 2019

DECLARATION

I hereby certify that the information provided in this resume is true, accurate, and complete to the best of my knowledge. I declare that I have not concealed or misrepresented any facts that are material to this application.

I understand that any inaccuracy or omission in the information provided may be grounds for rejection or termination of my candidature at any stage.
